

TotalTemp
TECHNOLOGIES, INC.

The Next Generation in Thermal Test Performance
A New Generation of Excellent Customer Service

TotalTemp Thermal Vacuum Systems

Complete Turnkey Systems or Platform integrated into existing system

- * High Altitude or Space Simulation up to: 1×10^{-6} Torr.
- * Temperature Range from:
-70°C to +175°C
- * Simultaneous Thermal Vacuum testing
- * Fast and portable with a small footprint
- * Fully Configurable for each Application

Specially configured Thermal Platform designed for heating and cooling through conduction while operating in a high altitude or vacuum environment. The TotalTemp Platform can be integrated into an existing vacuum chamber, as shown above (right), or we can provide a complete turnkey system (left) to solve your space simulation or other thermal vacuum challenges. 6.5 x 7.5" surface area on thermal platform with 12" tall bell jar (glass is standard) Usual configuration offers 5 unused 2.75" bore = 1.375" conflat feed-thrus.
